We are proud to introduce Dr Michael Emery to our fully serviced Anti aging medical spa . Dr. Emery is a licensed medical anti aging physician and joins our staff and medical Director Dr. Leslie O' Connell. We offer a comprehensive team of professionals with the intent of keeping you looking good and feeling good. Dr. Emery will begin seeing patients on Tuesday June 22, 2010 from 9am to 6pm.

Dr. Emery came to medicine after an eclectic life. He trained in European cooking schools and worked in Europe and the Middle East as a chef. He was also a land surveyor. He then attended Kansas City college of Health Sciences and East Tennessee State University to obtain his DO and Family Practice Board Certification. He has worked throughout New Mexico providing primary care medicine. Several years ago, he became fascinated with Anti-Aging medicine and now is one of the few board-certified Anti-Aging Specialists in New Mexico. He brings his unique holistic perspective and scientific acumen to a customized patient centered wellness. We are very happy to have him providing these cutting edge approaches to our clients

Come and Visit Dr. Emery

Tips From Dr. Leslie

I am very excited to have Dr. Emery join us. I recently had him review all my lab work and he prescribed a very comprehensive regimen of supplements and Bio-Identical Hormones for me. I am noticing less fatigue and more energy. Apparently my mitochondria were lazy! I recommend everyone take this opportunity to learn about these new medical breakthroughs.

What is Medical Anti-Aging?

The Science of anti-aging is an exciting new collaboration of advances in medicine and cell biology. Some practitioners prefer to call this emerging sub-specialty Metabolic Medicine. Anti Aging medicine is geared towards preventing disease processes before they start rather than treating diseases. Dr. Emery provides a comprehensive approach for analyzing your needs and personalizing individual treatments and expectations. After analysis of a comprehensive laboratory panel of wellness and hormonal markers, Dr. Emery works with Bio-Identical Hormones, supplements and life style counseling to help you achieve goals of wellness unique to you. In addition to this customized approach to feeling and looking your best, we offer aesthetic services to our clients to reflect your true "Eternal Youth." Please call 344-6334 for more information and to make an appointment . Plan on spending about an hour with Dr. Emery for your first visit . Thank you and we look forward in seeing you soon.
